

## MEMORANDUM

**To:** EscaRosa Train Wreck Preppers  
**From:** Jim Costa [Email](#)  
**Date:** 3/8/26  
**Re:** County Assembly Standing Up – First Week

### The Problem:

It appears no one in the US has a plan for their new County Assembly to stand up upon collapse of the Corporate government.

### Facts & Assumptions:

- A) No one knows **which group** will take us back to the Republic and away from the Corporation government.
- B) When the announcement in “A” above, what will be the **main goals**, actions and attention of the newly formed county assembly the first week?
- C) The **Military cannot assist** the Assembly otherwise Military leadership will be guilty of Treason.
- D) It appears that the competing groups only focused on the competition of taking down the Corp Government. There was **no planning for after the hill is taken**.
- E) There could be **shear panic upon the Announcement** due to lack of planning for the event. IE Goals, Procedures, who, when, where, with what, Membership requirements, Credentials for recognition by the County government employees, only volunteers and their coordination, websites, etc.
- F) What **membership paperwork requirement** should be in place?
- G) **Preacher Hair Problem.** Elections will be held after enough(?) members are in and trained. There may be a 38 year old wanna be with preacher hair wanting the leadership badly but not really prepared to do the job (Human Nature 101).  
  
This cannot be prevented in an open election, but can it be softened until more trained members are in after that initial election and the organization is running well? It would be best if he takes the reigns with a smoothly running system under him – training wheels.
- H) A **new Assembly with no members** cannot be accepted nor respected with only 5 members.
- I) **What will banks require** for opening a bank account to receive funds?

### **Opening Plan For Discussion:**

- 1) **Search Anna** Von Ritz's team for a similar plan for after.
- 2) **Canvas local community groups** for Members. Its time.  
This includes competing groups.
- 3) Be aware that anything Founders do can later be made lawful by **Ratification**.  
Therefore, create opening articles, rules and traditions. They can be changed later.
- 4) Make the **main goals** Membership, Training, Organizing and  
Procedures for contacting the County Government.
- 5) Plan for an office and **paid employees**.
- 6) Put **Golden Handcuffs on Founders** even if deferred salaries. This allows for organization  
construction to continue as the assembly formally opens after announcement.

This **insures the successful** standing up and is a training ground and crutch/coach  
for the newly elected leader.

It causes confusion (when necessary) as to who is leading whom.  
When no longer needed it can be dissolved.

- 7) Create as **many Procedures** as possible during this time.
- 8) The finished product should look like this [Link](#)
